

Its official, Basin Swim Academy has partnered with Red Barn Ranch to promote water safety to all campers with their certified Lifeguards and Swim instructors. Their highly skilled swim instructors have been teaching hundreds of kids since last June and helping to make them waterproof. Throughout the camp day campers will be broken up into groups at the pool to work on several different skills such as:

- Getting comfortable putting faces in the water (If not already)
- Floating on their backs to maintain an open-air way
- Kicking properly to be able to propel themselves to a wall
- Using their arms to pull through the water
- Building confidence in the water and so much more

All staff have gone through trainings and background checks with Basin Swim Academy and Red Barn Ranch. They are extremely excited to team up to make this a fun and water safe summer for all!

If you are looking for some extra help to become waterproof, Basin Swim Academy will also be offering Private and Semi Pvt lessons during no camp hours and weekends. To learn more about the Academy check out their website at: [Basin Swim Academy – We're here to help make you waterproof.](#) For any additional questions please send them an email at [Swiminfo@basinswimacademy.com](mailto:Swiminfo@basinswimacademy.com) .
